INSTITUTE

THE LONDON REGENERATIVE INSTITUTE (LRI)
UNITES CUTTING-EDGE, CONTEMPORARY
MEDICINE WITH INDIVIDUALISED PROCEDURES,
OFFERING A POWERFUL TOOL TO TURN
BACK THE HANDS OF TIME.

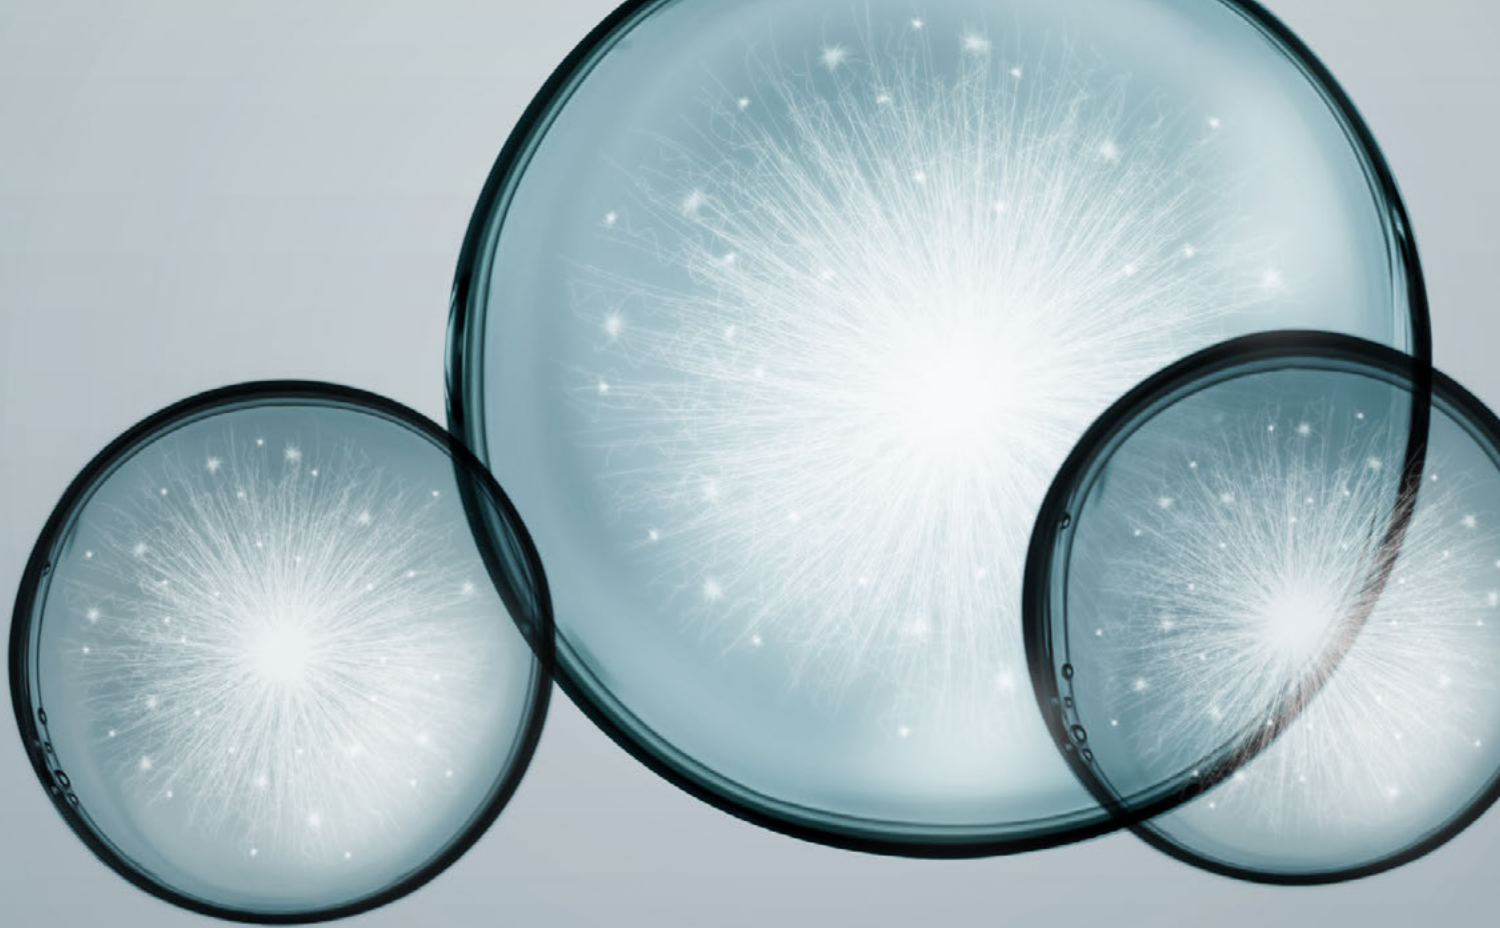

At LRI, patients benefit from an all-encompassing,
precision mapping of their total health. This includes
epigenetic testing, blood-based biomarkers,
whole body imaging, bone and muscle strength analysis,
nutrition and lifestyle habit evaluation, and much more.

Our mission goes beyond simply extending lifespan
- we concentrate on enhancing your health span to ensure
your years are filled with optimal wellness.

Join us at the London Regenerative Institute at Corinthia London,
where your journey to longevity is as unique as you are.

Consultation

INITIAL CONSULTATION

£200

Redeemable against treatment | 20 min

Embark on your anti-ageing journey with us at the London Regenerative Institute. We harness your body's inner potential to slow down the ageing process using a unique, scientifically-backed approach. Through bespoke screenings and innovative therapies, we decode your epigenetic makeup, creating a personalised blueprint for your longevity journey.

Screening

CORE SCREENING

£1200

A series of diagnostic assessments to ascertain your biological age and identify potential health concerns. Personalised suggestions are devised to decelerate ageing and promote longevity.

INCLUDES:

- Comprehensive blood test
- Biological profiling
- LRAge PACE (Epigenetic Test)
- AI Skin Analysis
- 3D Body Analysis
- Health Status Questionnaire
- Basic Suggestions

IN AND OUT SCREENING, DETOXIFICATION & TREATMENT ROAD MAP

£2500

An extensive series of diagnostic assessments and investigations to determine biological age and understand your current picture of health. A road map comprising cutting-edge therapies and biohacking treatments is devised to optimise health and longevity, and reduce the rate of ageing.

INCLUDES:

- LRAge (Complete Epigenetic Test)
- AI Skin Analysis
- 3D Body Analysis
- Blood Test
- Health Status Questionnaire
- Detoxification Programme
- Longevity Suggestions

Longevity & Biohacking Treatments

HYPERBARIC OXYGEN THERAPY (HBOT)

HBOT enhances the delivery of oxygen to the body's tissue, increasing healing capabilities and reducing inflammation.

- Single Session | 45 - 60 min £150
- Course of 5 Sessions* £600
- Course of 10 Sessions* £1100
- Course of 20 Sessions* £2000

HYPOXIC ALTITUDE TRAINING

Intermittent Hypoxic Training (IHT) is a dynamic form of adaptive medicine that boosts your body's efficiency by introducing less oxygen. This method utilises repeated cycles of low oxygen exposure, followed by periods of regular oxygen levels, to stimulate cellular function and optimise regenerative potential.

- Single Session | 60 min £140
- Course of 5 Sessions £590
- Course of 10 Sessions £1050

JET LAG RECOVERY

£275

- Hypoxic Altitude Training | 30 min
- Hyperbaric Oxygen Therapy | 60 min

* Recommended 5 days per week

Regenerative Skin & Hair Treatments

REGENERATIVE MICRONEEDLING WITH LRI ExO

LRI ExO - EXOSOME SERUM, MORPHIYA EXOSOME BIOTECH CREAM & HBOT

Tiny needles are used to create micro punctures on the skin to help kickstart natural healing, targeting fine lines and wrinkles. Exosomes are used to promote healing and intensify results.

The same process is used when targeting hair regeneration by helping to reactivate dormant hair follicles, leading to thicker and fuller hair.

LRI EXO FACE & NECK TREATMENTS

- Single Session£850
- Course of 3 Sessions* £1900
- Course of 5 Sessions*£3000

EXOSOME CREAM

- Morphiya Concentrate Cream - Anti-Ageing Booster£320
- Morphiya SOS Cream - Scars & Wound Healing..... £220

* Recommended 2 - 4 weeks apart

REGENERATIVE RADIOFREQUENCY MICRONEEDLING WITH LRI ExO

LRI ExO - EXOSOME SERUM, MORPHIYA EXOSOME BIOTECH CREAM & HBOT

Tiny needles penetrate the skin to deliver radiofrequency deep into the dermal layers to help tighten the skin and increase the production of elastin and collagen, targeting pigmentation, scarring and sun damage. Results are amplified with exosomes and hyperbaric oxygen therapy.

The same methodology is applied when targeting hair regeneration. Combined with Exosome serum, radiofrequency microneedling helps reactivate dormant hair follicles, leading to thicker and fuller hair.

FACE & NECK - RF MICRONEEDLING & LRI EXO

- Single Session £1750
- Course of 3 Sessions* £3850
- Course of 5 Sessions* £5500
